

SECURING DATA CENTERS

In today's age of turmoil, data centers are becoming increasingly vulnerable to targeted sabotage activities. With global data center traffic expected to grow exponentially, protecting these facilities becomes a top priority for the industry. As North America is estimated to hold the largest share of global data centers, we at Betafence USA are committed to delivering durable solutions to protect these critically important facilities.

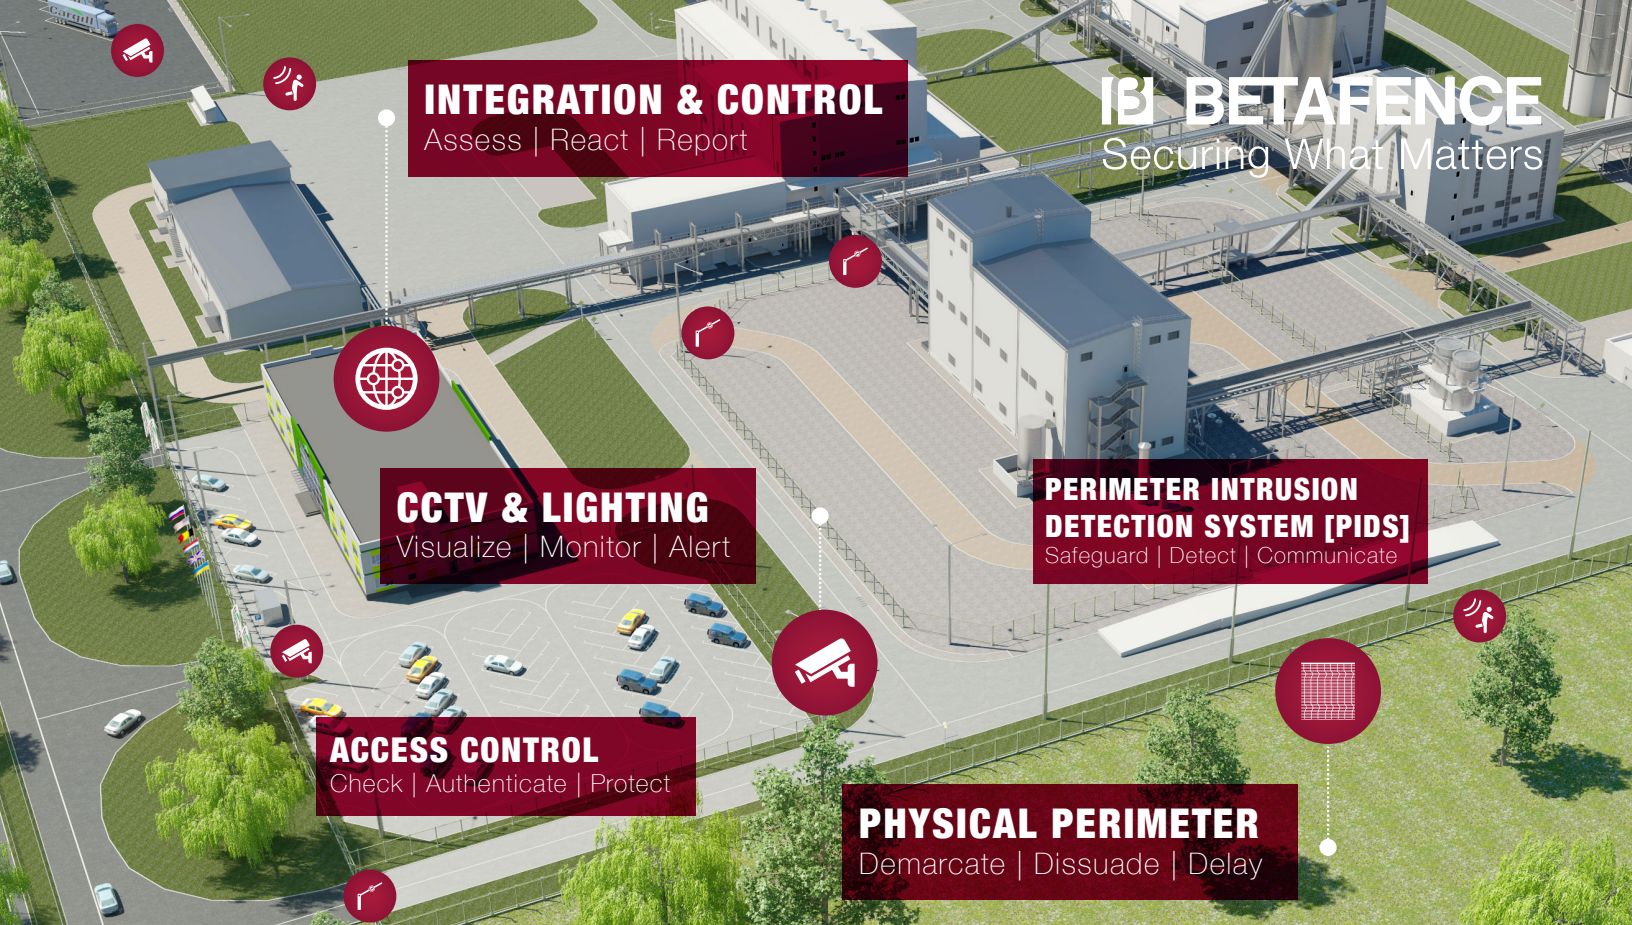

Our turn-key, high-security perimeter protection systems act as a strong deterrent to breach attempts. Our integrated protection systems include best-in-class technologies, such as redundant and overlapping disparate perimeter intrusion detection systems, advanced approach warning systems, thermal and analytical surveillance cameras, controlled security lighting, hardened entry & exit points and certified anti-crash cables, barriers and bollards.

With in-depth knowledge of the advances and developments in the industry, we offer our customers tailored security solutions that exceed each project's requirements. With the successful design and integration of perimeter solutions for some of the world's most challenging facilities & environments, Betafence has positioned itself as an intelligent and reliable partner of choice.

BETA FENCE SYSTEMS, SOLUTIONS & SERVICES

- Risk assessments
- Design & engineering
- Perimeter security consulting
- Project management & installation
- System integration
- Training, maintenance and support
- Rapidly deployed, surface - mounted barriers
- Certified crash - rated fences & barriers
- High - security fencing systems
- Crash - rated wedges & bollards
- Solar - powered, wireless PIDS
- Monitoring & control of perimeter security systems

INTEGRATION & CONTROL
Assess | React | Report

CCTV & LIGHTING
Visualize | Monitor | Alert

**PERIMETER INTRUSION
DETECTION SYSTEM [PIDS]**
Safeguard | Detect | Communicate

ACCESS CONTROL
Check | Authenticate | Protect

PHYSICAL PERIMETER
Demarcate | Dissuade | Delay

FIT FOR PURPOSE

Physical Perimeter

Rapid Deployment Surface-mounted
Ballistic-resistant Fencing
RPG Pre-Detonation Screen
Crash-Rated Fences
Crash-Rated Bollards
High-Security Fencing Systems

Perimeter Intrusion Detection System (PIDS)

Mounted | Standalone | Buried
